

A close-up, high-resolution photograph of a person's eye. The eye is dark brown with a visible iris and pupil. The surrounding skin is dark and textured. The image is used as a background for the left side of the slide.

African Americans
are more likely to
get melanoma:

- On the palms of the hands
- On the soles of the feet
- Under the nails
- In the eyes

Be sure to check
these places when
doing your skin
self-exam.
